*All grant applications are evaluated by the Noxious Weed Management Advisory Council prior to deliberations. Evaluations are scored based on project type specific criteria with a maximum score of 100. Scores are averaged by voting members and advisory members, then added together for a total evaluation score. Applications are ranked from hi to low based on total score. Ranking and scores are only part of the Council's funding recommendation decision and serve as a starting point for deliberations; they do not guarentee funding. Additional considerations may include past project performance, remaining grant funds, current priorities and needs of weed management, available grant funding, etc. Evaluation criterias are posted here: https://agr.mt.gov/NoxiousWeedTrustFund.
