Proposals Sought for Potato Research & Market Development Program
Proposals application closes October 10th, 2024

Helena, Mont. – The Montana Potato Advisory Committee is seeking proposals for the Montana Potato Research & Market Development Program. Proposals should relate to demonstration projects, applied research, and market development projects designed to address needs and opportunities for the Montana potato industry.

The committee will review proposals at the first regular meeting of the year. It will review all applications and make recommendations to the department for funding. Projects must be innovative and not duplicate relevant research already available to Montana potato producers. If relevant research is available, the applicant must explain how the proposed research will build upon the previous research.

Applications are due by 5:00pm on October 10th, 2024, and must be submitted via WebGrants.

Questions on applications should be directed to the Montana Potato Research & Market Development Program, PO Box 200201, Helena, MT 59620-0201 or by contacting Dani Jones at (406) 444-2402 or via email at danielle.jones@mt.gov.

The primary goal of the Montana Potato Research & Market Development Program as stated in the enabling legislation: "In order to protect and foster the health, prosperity, and general welfare of the people of Montana, it is declared to be the public policy of this state to encourage and promote intensive, scientific, and practical research into all phases of agricultural commodity culture, production, marketing, and the development of markets for commodities grown or produced in Montana."

The Montana Department of Agriculture is serving Montana Agriculture and growing prosperity under the Big Sky. For more information on department programs and services, visit agr.mt.gov.
